## PVC GRATING FOR CAN188

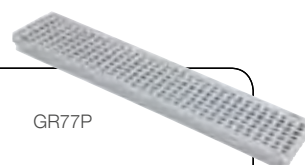

DESCRIPTION	DRAWINGS	REF. Light grey	REF. Sand	Packing	Packaging
		<b>GRL88</b>	<b>GRL88S</b>		8
	Set of screws to fix GRL88 on channel body CAN188 (for 3 meters of channels) To be ordered by sets of 12 pieces	<b>FIXCAN2</b>		S12	

### DID YOU KNOW ?

#### Nicoll pool grating:

- Special pedestrian grating (class A15).
- Ideal for barefoot use (hole diameter less than 8 mm, in compliance with standard NF EN 1253).
- Possible applications in swimming pools, changing rooms and public showers.
- Resistant to UV, corrosion and chemical agents (chlorine).

GRL77P

# CONNECTO<sup>®</sup>, new PVC gratings design

## Building

NEW

**Nicoll** is offering a new range of PVC gratings with updated design to match perfectly with your environment. These gratings are suitable for Connecto<sup>®</sup> drainage channel bodies of 130 mm width.

### Advantages:

- 2 models for the environment of the garden - A15
- 1 model for the environment of the garage - B125
- Colour in harmony with the ground, the facade and gutter downpipe
- Anti-Uv treated PVC grating
- Grating suitable for drainage channels bodies in compliance with NF EN 1433 standard
- Complies with disabled accessibility requirements
- Lockable grating

## INNOVATION

Irrespective of the model:

- A full stainless steel finish available on request: stainless steel grating + edges.
- Optional 316 stainless steel grating available on request: designed for corrosive environments (seaside areas).

# CONNECTO® shallow channel 3 m length

Building

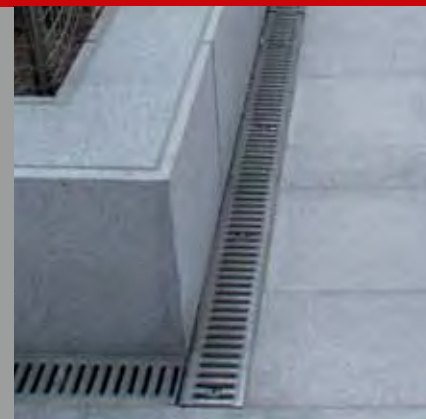

NEW

**Nicoll** is innovating and proposes a new generation of unique drainage channels on the market: a wide range of drainage channels. Measuring 5 cm in height and 3 m in length, its installation is quick and easy thanks to its carefully designed accessories. In compliance with EN 1433 standard, this PVC channel collects run-off water. Nicoll offers you a wide range of well-designed and aesthetic gratings. Nicoll: a solution for each project !

## Advantages:

- Durability
- Even longer: less single points to deal with
- Reduced height: solves the issue of small obstruction
- Excellent UV-resistance of PVC associated grating
- Complies with disabled accessibility requirements
- Attractive: perfect alignment of the channel line
- 100 % recyclable
